

Scan of the 9 Environments

The goal of this self-assessment is to support you in raising your awareness around which environments might be creating a source of stress or struggle in your life. It is NOT to give your life a score of excellent, good, fair, or poor. Read each phase on pages 2-4 and place a check mark next to each phrase that you can answer YES to. If it is NO or MAYBE then leave it blank. Total up the number of checks in each environment and write that number on the circle below. You will have a number ranging from 1-10 in each segment on the graph.

Most people have one or more environments that could use some improvement, so connect with your coach to discuss how to improve your environments and begin to upgrade your life. Once your lower environments are improved, then there is a good chance the other environments will fall into place as a by-product because each of the environments impact each other. Enjoy the journey.
